**News and views** **3-8**

**Managing behaviour** **10-11**

What's the best policy when children behave dishonestly in the classroom?  
Stephanie Thornton explains

**Special needs** **13-14**

In this month's special needs article, Jackie Cosh explains how to help children with a speech defect known as a 'clutter'

**Special report** **16-18**

How have children around the world been affected by the media coverage of the McCann case? Should we be putting the story in perspective for them?

**Child health** **20-21**

When a child in your class has a long-term medical condition, it's not only stressful for you and the pupil, but the rest of the group too. Carrie Dunn explains

**Child health** **22-23**

Almost one in two children under the age of ten get threadworms. Effective hand washing is key to help prevent threadworms from spreading between children

**Music** **24-25**

Music has long been regarded as a specialised subject – only of interest to those with obvious natural talents, and merely a waste of time for everyone else

**Understanding time** **26**

Time is such a fundamental factor in our lives. The system we use to describe it is relatively simple – so why do children have such difficulty mastering it?
